AI-DRIVEN TIME-TO-MARKET

100%

SEO & REVENUE RETAINED

PROFESSIONAL SUMMARY

Senior Product Manager with 11+ years driving audience growth, engagement, and revenue for world-class media brands — Vogue, GQ, Wired, Condé Nast Traveller, Architectural Digest, and Newsweek — across global markets, including new brand launches in the Middle East and Germany. Built \$0 to \$20M+ monetisation channels and lifted audience engagement 30%+ through tentpole product launches, while operationalising AI tools and solutions across the product lifecycle to cut prototyping cycles 30% and time-to-market 50%. Proven at zero-downtime migrations across 50M+ user platforms at global scale.

CORE COMPETENCIES

Product Vision & Strategy	AI/ML Product Strategy	Generative AI	Audience Growth & Engagement
P&L / Revenue Ownership	Monetisation Strategy	Product Discovery	Experimentation & A/B Testing
MVP Definition	Roadmap Planning	Go-to-Market Strategy	KPIs & Product Metrics
PRDs & User Stories	CMS Architecture	Technical SEO	Core Platform
Cross-Functional Leadership	Stakeholder Management	Agile / Scrum / OKRs	Localisation & Market Expansion

PROFESSIONAL EXPERIENCE

Independent Product Builder

May 2026 – Present

BuiltBySwami

- BuiltBySwami.com — End-to-End Product Ownership** — Conceived and shipped a personal content platform from scratch post-Condé Nast, defining audience, content, and distribution strategy (site, newsletter, and social) before writing code; built the site (React, TypeScript, Vite, Tailwind) using AI tools as build partners across content and technical execution, then instrumented analytics (GA4, GTM, Search Console) to drive an ongoing publish-measure-iterate loop.
- Free Word Tool — Solo AI-Native Build** — Took a browser-based utility from brief to live production (freewordtool.com) in a single one-day sprint — scoping 6 target user segments from editorial/platform experience, directing AI tools through execution, and catching and reversing mid-build scope creep to ship one focused, privacy-first tool (fully client-side, no data upload) instead of an unfocused bundle.
- Task Management App — 24-Hour AI-Native Sprint** — Took a full task-management engine (data modeling, state, persistence, UI) from empty repo to a working app in 24 hours, solo — writing the product context/brief upfront and directing AI tools through execution in tight build-review loops. Private build, not published to the Play Store.
- Portfolio Audit** — Conducted a self-initiated portfolio audit (Editorial, Audience, Commerce, SEO) for a major global media brand.

Senior Product Manager

May 2022 – Apr 2026

Condé Nast — Vogue · GQ · Wired · Condé Nast Traveller · Architectural Digest · Bengaluru

Global scope: US, EMEA, LATAM, APAC, Middle East

- Market Expansion** — Launched Vogue, GQ, and Wired in the Middle East and Condé Nast Traveller in Germany — new-market entries that were the core driver of the \$20M+ net-new revenue build, opening new advertising, subscription, and partnership channels in each market.
- Revenue Growth & P&L** — Owned the P&L for new revenue lines, directing the full-cycle launch of monetisation channels including the Architectural Digest Directory (\$300K), the Condé Nast Traveller and Abercrombie & Kent booking partnership (\$650K), and Traveller Secret Homestays with Airbnb & Booking.com.
- AI-Native Product Delivery** — Operationalised AI tools and solutions across the product lifecycle — from discovery to shipped MVP — cutting prototyping cycles 30% and time-to-market 50%, validating product bets with users before committing engineering.

- **Audience Growth & Engagement** — Led global tentpole product launches — Vogue Met Gala and GQ Men of the Year — and A/B tested editorial storytelling formats to drive a **30%** audience lift, **24%** increase in time on page, and **\$800K** incremental revenue.
- **Frontend & Sponsor UX** — Designed and shipped interactive sponsor modules and new editorial storytelling formats to elevate the reading experience — driving an **8%** lift in sponsorship revenue and a **12%** increase in time spent on site.
- **Platform Growth** — Orchestrated the migration of Condé Nast Traveller Spain & LATAM onto a unified Spanish-language platform, growing reach to 56.6M unique users with projected revenue growth of **\$1.3M** by 2027.
- **Technical SEO & Migration** — Executed large-scale platform migrations for Vogue, GQ, Wired, and Architectural Digest with **100%** SEO integrity and zero revenue loss, leading cross-functional Agile squads across Engineering and Design.
- **Team Leadership & Mentorship** — Managed and mentored two junior product managers, establishing shared discovery and delivery standards and growing their ownership of features across regional squads.

Product Manager, GQ

Condé Nast · Bengaluru

Oct 2020 – Apr 2022

- **Global Roadmap Ownership** — Owned the product roadmap for GQ's 10 global digital properties — writing PRDs and user stories and defining feature priorities across Editorial, Commercial, and Engineering.
- **Frontend & Editorial UX** — Shaped shoppable-editorial and storytelling UX components across GQ's global properties and scaled affiliate commerce (Amazon Associates, Skimlinks) across PLPs — lifting on-page engagement **6%** via recirculation component clicks, CTR **7%** on redesigned PLP layouts, and opening new revenue channels through improved on-page monetisation.
- **Audience Growth & Engagement** — Delivered GQ Men of the Year, GQ Sports, and FIFA World Cup 2022 activations — driving a **30%** audience lift and **\$500K** incremental revenue.
- **Platform Migration** — Led GQ's migration to a unified global CMS across 4 regional teams with zero SEO degradation and zero ad-revenue disruption.
- **Promotion** — Promoted to Senior Product Manager (May 2022) with expanded scope across Vogue, Wired, Condé Nast Traveller, and Architectural Digest.

Product Manager

Newsweek · Bengaluru, India

Jan 2018 – Oct 2020

- **Brand Redesign & Engagement** — Led the Newsgeek brand redesign end-to-end (user research to launch), driving a **17%** traffic lift and **14%** uplift in article engagement via a new on-page engagement module.
- **Platform Scale** — Owned the roadmap for digital properties reaching 50M+ monthly unique visitors, balancing Editorial, Sales, and Engineering priorities in an Agile environment.
- **Zero-Downtime CMS Migration** — Directed an enterprise CMS migration with Technical SEO teams, preserving **100%** site authority and ad-revenue continuity throughout the transition.

Global Product Manager

Metro International · Gurugram

Apr 2015 – Dec 2017

- **CMS Build & Revenue** — Scoped, built, and launched a brand-new CMS from scratch in 3 months using Agile delivery — generating **\$850K** in incremental revenue for Metro US.
- **Website Redesign & Engagement** — Led Metro International's global website redesign, delivering a **7%** traffic increase and an **11%** uplift in article engagement.
- **Roadmap & Discovery** — Defined the product discovery process and roadmap with Editorial, Development, and Commercial — translating business vision into shipped product.
